

## THE WORLD OVER

### \$60,000 FIRE IN TOWN OF ALASKA

### DOMINION TO PURCHASE SILVER

### LIFE RESTORED BY STRYCHNINE

ALASKA, Aug. 29.—Three cafes and a hardware store were destroyed, and a grocery was partially burned, in a \$60,000 fire which swept along a business block on the east side of town.

The buildings destroyed were the Skatchewan-Alaska Hardware, the Grande Cafe and Ritz Cafe. The damaged grocery was owned by R. R. Rhinam. Origin of the fire has not been determined but it broke out in the second floor of the Ritz cafe and only partially covered by insurance.

OTTAWA.—The Dominion government has accepted tender under which it will purchase 250,000 ounces of silver at an average price of 48 cents an ounce, Canadian funds. Announcement to this effect was made by Sir George Perley, acting minister of finance.

The purchase is made in accordance with the terms of the international agreement on silver whereby Canada undertook to pay 1,577,500 ounces of newly-mined Canadian silver during the four years 1934 to 1937 inclusive.

Ed Arbow, old time prospector of the Manitoba gold fields, who died on Thursday last while having his tonsils extracted, was restored to life by an injection of strychnine. Dr. A. Martin, of the Psa. Man, who conducted the tonsil operation, was credited with bringing Arbow back to life after the man had been dead for a minute and a half. While under a local anesthetic, Arbow's heart stopped beating altogether in the middle of the operation. After a minute and a half of frenzied effort to restore life in the man, Dr. Martin gave two injections of strychnine in Arbow's heart which brought him around. Arbow's only recollection of being dead is one of coming out of darkness into bright light.

The Club Here: "Do you know, old chap, when I came in I had a dreadful headache. I've quite lost it now."

The Victim: "Don't worry. It's not lost. I've got it."

## FARMERS ON DROUGHT LAND TO BE MOVED BY GOVERNMENT

OTTAWA.—A three-way agreement between the Dominion, provinces and Canadian railways has been negotiated to provide relief for drought-stricken farmers in the parched sections of Manitoba, Saskatchewan and Alberta. It will enable cheaper transportation for livestock food into the areas and reduced rates for cattle removed to feeding grounds in the north.

The Dominion hopes to make the drought areas fertile again by strip farming and grass growing systems. It was stated that as a result of the agreement, some hope of solution is held out for the problem of 40,000 families and half a million head of live stock in those parts of southern Saskatchewan, Alberta and Manitoba that are facing their fourth successive year of crop failure.

## THE ART OF GETTING ALONG

Sooner or later, a man, if he is wise, discovers that business life is a mixture of good days, and bad, victory and defeat, ease and take. He learns that even the lowliest of men usually loses. He comes to realize that the business doesn't run perfectly well without him. He learns that carrying a chip on his shoulder is the easiest way to get into a fight. He learns that back biting always turns out to be a fooling, and that it leaves him. He learns that the quickest way to become unpopular is to carry tales of gossip about others. He learns that it doesn't matter so much who gets the credit so long as the business shows profit. He learns that to be a sensitive soul—that he should let some things go over his head like water off a duck's back. He learns that even the snail is human and that it doesn't do any harm to smile and say "Good morning," even if it is raining. He learns that all men have burnt toast for breakfast now and then, and that he shouldn't take the other fellow's growth too seriously. He learns that most of the other fellows are as ambitious as he is, and they have brains that are as good or better, and that hard work and not cleverness is the secret of success. He

Customer (to butcher): "Those sausages you sent me had meat at the end."

Butcher: "Yes 'mam. In those hard times it's difficult to make both ends meet."

## Fortnightly Crop Report of Bank of Montreal

General.—Harvesting is now general over the prairie provinces and throughout the central areas as well as in some northern districts. Heavy hail damage is reported in areas of southern Alberta and over a considerable territory in central Saskatchewan. The course grain crop is practically a total failure in extensive areas of central and southern Saskatchewan and in south central and southwest Manitoba and in these areas feed for livestock presents an acute problem. In Quebec province average yields of barley and oats are in prospect and roots are progressing satisfactorily except in some parts of the eastern townships. In Ontario harvesting of spring grain is moving companies with oats and barley getting better and average yields. In the Maritime provinces potatoes and apples show satisfactory progress and good grain yields seem assured, except in Nova Scotia where they will likely be below average. In British Columbia most crops are in good condition.

Northeastern Alberta.—Cutting is well advanced but practically no threshing has been done. The crop is below average.

Southeastern Alberta.—Approximately 75 per cent of the cutting is done. The crop is light and pasturage poor. Western Alberta.—In the north all crops are very promising and harvesting is general. In the south harvesting is well advanced and yields vary from low to good. Sugar beet crop is good.

## OUR ATTITUDE TO PARTIES

(Montreal Witness)

The Conservative Party has, to our thinking been in the main narrowly pro class and hardly at all national. It has found us in general opposition to it. But what's in a name? If the Conservative Party should be converted and should set itself to expose the public cause against the classes of greedy privilege, the Witness would be found among its allies, preferring it to a Liberal Party that is liberal in name but woefully lacking courage of conviction, real vision and the spirit of adventure for the common good. We take the present view of the Conservative Party as a protest against what is, rather than an approval of the program of the Liberal Party. We are greatly encouraged to think that reforms may spring up where we least expected them and where they may prove most strategically effective. That the Conservative Minister of Trade and Commerce, seeing facts in the eye, should rise like a champion, like athletes with head in mind, some of his associates refuse to recognize evil as at least hopeful signs of changing times.

## EARLY WESTERN WHEAT IS GRADING HIGH

WINNIPEG.—A high protein content and a large percentage of high grade wheat is contained in early arrivals of the 1934 Western Canada returns of the grain inspection department and the laboratory of the board of grain commissioners for Canada, showed recent results.

In the reports from both sources it is pointed out receipts are mostly from northern sections of the western provinces and results obtained apply only to a small part of the crop. Inspection shows that in the first 30 cars of red spring wheat inspected two-thirds graded No. 1 Hard or No. 1 Northern, the former totalling 25 cars and No. 1 Northern 152 cars. Only eight cars of No. 3 Northern appeared in the first 30.

## REID HILL STORE MOVED TO GRAINGER

The following news item recently appeared in the Vulcan Advocate:—The store at Reid Hill, east of Vulcan, has been closed and the owner J. O'Connor, has moved his stock to Grainger, Alberta. The post office is being kept open by Mrs. O'Connor for the present, while an effort is being made to find a successor, and someone who will open another store.

## LITTLE FIBS THAT NEVER WEAR OUT

"Well, I had a good time, but it's good to be back at work again."

"Oh, you don't mind riding in the rumble seat a bit?"

"Aw, let the kids stay here. Till they don't bother us."

"Listen, I know I'm in, but I'll put in another chip anyhow."

"Go right ahead, Mrs. Smith! We always enjoy 'Amos' in Andy!"

"Usually it's very cool here at night. I can't understand why..."

"Really, I think your daughter has marvelous voice."

"...And we hope you'll come over and see us real soon."

## Snicklefrizt

The man who raises four or five children deserves a lot of credit. In fact, he can't get along without it.

The American tourist was admiring Loch Lomond. Turning to Mac, his guide, he said: "We sure could be doing with that Loch in America."

"Oh, that's easy done," said Mac. "Just a few drumpkins across the Atlantic, and if you can walk as well as we can Mac'll be over in no time."

Wife: "Mrs. Jones has another new hat."

Hubby: "Well if she were as attractive as you are, my dear, she would not have to depend so much upon the milliner."

Professor (after lecture): "Are there any questions?"

Student: "Yes, sir. How do you calculate the horse power in a donkey engine?"

## Carbon School Opens Monday

The Carbon public and high school will reopen for the full term on Monday, September 3rd.

The high school students should order their books at the Drug Store before Thursday, Aug. 29, for the following courses. In order that they may be on hand for the opening day. The other courses will be discussed on Monday.

Grade XI—Literature, Composition, Grammar, Canadian History, Civics, Economics, Arithmetic, chemistry.

Grade X—Literature, Composition, Grammar, Canadian History, Civics, Economics, Algebra, Geometry.

Grade IX—Literature, Composition, Grade VIII Grammar, Geometry.

## Local News Items

Rev. J.R. Davies has accepted the pastorate at Orton and will commence his new duties on September 1st.

## CARD OF THANKS

We wish to thank everyone for the sympathy shown during our recent bereavement. Also all those who sent floral tributes.

Mr. and Mrs. W. Dixon and family  
Mr. and Mrs. P.J. Bessant and family

## THRESHING IN FULL SWING NOW IN CARBON DISTRICT

Many threshing outfits commenced operation in the Carbon district on Monday of this week and threshing is now general. Most of the cutting has been completed and favorable weather with plenty of wind is hastening the wheat ripening.

While threshing returns are just beginning to come in, reports are that crops are averaging as good or better than at first anticipated and south of town some fields are showing 20 bushel crops on summerfallow.

With favorable weather another two weeks will see most of the threshing completed.

Mr. McCoy, contractor of Edithway, who has the contract for the re-surfacing of the Edithway-Edithway section of the No. 9 highway, and his camp, moved into town on Saturday last and will be here for about a month having gravel from the local C.P.R. yards.

Government surveyors in charge of Mr. Henderson, who have been surveying a gravel connection between Edithway No. 9 and 21, received word on Saturday to return to headquarters before completing their work.

## SERVICES FOR HARRY POXON

Funeral services for the late Harry Poxon, who met his death when overcome by gas fumes in a tank car on the C.P.R. tracks, Carbon last Wednesday morning, were held from the Central Church on Sunday afternoon at 2:30 o'clock and were conducted by Rev. Wm. McNeill of Carbon.

pallbearers were: Clarence Reed, John Evans, Harold Edwards, Norman Nash, Edwin Mortimer and John Kistner.

Visitors were present from many parts of Alberta and the large number of floral tributes and crowd of armchair attenders attending the service testified to the esteem in which the late Harry Poxon was held by his friends.

The late Harry Poxon was 17 years of age and leaves to mourn his loss his father and step mother, two brothers, Lawrence and Wilfred, and one sister, Winnifred. Also his foster parents, Mr. and Mrs. P.J. Bessant, with whom Poxon had lived since the death of his mother some years ago. Winter Bros. Funeral Home of Drumheller had charge of the funeral arrangements and interment was made in the Carbon cemetery.

## Alberta Grain Growers!

## READ THIS MESSAGE

It is of vital importance that a strong co-operative elevator system should exist in Alberta. It is desirable that such an elevator system should be under the control of Alberta grain growers—men who are actually following the occupation of farming.

The Alberta Pool Elevator system is the only organization in Alberta that meets these requirements.

All company elevators of the Pool system are operated under public license and as such are in a position to handle the grain of any grower.

Alberta Pool Elevators are on a sound financial basis; are efficiently managed and can give unequaled service to the grain growers of this province. Alberta Pool agents are carefully selected and have strict instructions to give fair treatment, including proper weights and correct grades, in all patronage.

Alberta Pool Elevators operate on the co-operative principle of "each for all and all for each"—a principle which will tend to bring a measure of economic and social justice, peace and prosperity throughout the world.

THEY ALL DO IT

A hen is not supposed to have such common sense as that.  
Yet every time she lays an egg she  
cackles forth the fact.  
The watchdog barks and garden  
quack, and doves and pigeons coo.  
The peacock struts his tail and  
showers, plies sunset and sunrise show.  
And even servants know enough to  
hiss before they slay.

But none the greatest masterpiece  
that Nature could devise.  
Will often stop and hesitate before  
he'll advertise.

Reduced fares to cover the  
Labor Day week-end from Aug.  
23 to 12 noon Monday, Sept. 3,  
have been authorized on the  
Canadian Pacific Railway between  
all stations in Canada. Round  
trip tickets will be at the rate  
of fare and a quarter and will be  
good until midnight, Tuesday,  
September 4.

Returning from White City,  
London, Eng., aboard Canadian  
Pacific liner Montreal, the ab-  
sents who represented Canada  
at the British Empire games came  
back practically in a body to the  
number of around 100. They  
sailed for England aboard the  
Duchess of York July 20.

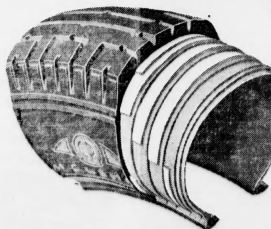

Australia is showing very sub-  
stantial evidence of recovery with  
continued betterment in sight. It  
is the view of John P. Brophy, Com-  
monwealth Trade Representative  
at New York, stated when inter-  
viewed aboard S.S. Niagara on  
arrival recently at Victoria.

Fifty per cent. ahead of last  
year at mid-August with pros-  
pects for balance of season ex-  
ceptionally good for the Canadian  
Pacific hotels and resorts in the  
Rockies is reported by A. E. Robert-  
son, assistant general manager,  
in charge of the Company's west-  
ern hotels.

Prominent British parliament-  
arians are visiting the Maritime  
Provinces this year, including  
Prime Minister J. Ramsay Mac-  
donald. The Canadian Pacific  
liner Montreal recently carried  
as a passenger Dr. E. Leslie  
Barnes, M.P., parliamentary sec-  
retary of the British Board of  
Trade, who will stay at St. An-  
drews-by-the-Sea, Saint John and  
Dunby, N.S.

# THE Greatest Advance IN TIRE CONSTRUCTION SINCE THE BALLOON TIRE!

## 7 Built-In "SHOCK ABSORBERS"

Every Gutta Percha and Roadcraft Tire is built of the  
highest-quality cotton cords, every strand impregnated  
with and protected by rubber.  
These protected cords are built into cross-cross layers for  
added strength, and are further protected at crucial  
points by broad pads of live gum rubber built-in  
between the plies to safeguard the cords from damage,  
as shown in the photograph at the left. See for yourself  
how blows on the tread or side-walls would be  
cushioned by these "shock-absorbers." There are 7 of  
them—the 5 you see in the photograph and 2 on the  
other side of the tire. Only Gutta Percha and Roadcraft  
Tires give you this safer construction at no extra cost.
